Panacur 150mg Tablet Vet

Broad-Spectrum Veterinary Dewormer

An educational overview of this trusted fenbendazole-based treatment, presented by ivercares.com

PANACUR 150MG · VET

What is Panacur 150mg Tablet Vet?

IVERCARES

01 Contains fenbendazole, a broad-spectrum anthelmintic drug.

02 Treats and controls **parasitic infections in animals**.

03 Trusted choice for both pet owners and veterinarians.

04 Works for dogs, cats, and select livestock species.

05 Available only for veterinary use, not for humans.

How Panacur Works

IVERCARES

01 Inhibits the parasite’s ability to absorb glucose.

02 Breaks down the parasite’s internal energy stores.

03 Causes the parasite to weaken and eventually die.

04 Dead parasites are naturally expelled from the body.

05 Absorbed into the bloodstream to reach the intestines.

Key Features

IVERCARES

01 Broad-spectrum protection against many **intestinal parasites**.

02 Well-tolerated, even with extended veterinary-guided use.

03 Formulated specifically for accurate veterinary dosing.

04 Convenient tablet form for precise, easy administration.

05 A reliable option with a strong safety track record.

Parasites Treated: Roundworms & Hookworms

01 Roundworms can cause digestion issues in young animals.

02 They may also lead to malnutrition and growth problems.

03 Hookworms can cause severe anemia in affected pets.

04 Hookworm infection often brings lethargy and GI distress.

05 Both are common in puppies and kittens.

Parasites Treated: Tapeworms, Whipworms & Giardia

01 Tapeworms can cause weight loss and discomfort.

02 Whipworms often trigger diarrhea and vomiting.

03 Whipworm infections may also cause abdominal pain.

04 Giardia is a protozoan causing digestive upset.

05 **Fenbendazole** is one of the few options effective against it.

Dosage for Dogs and Cats

IVERCARES

01 Typically one tablet per 5–10 kg of body weight.

02 Exact amount depends on the animal’s specific needs.

03 Usually given daily for a course of 3–5 days.

04 Always follow your veterinarian’s precise instructions.

05 Never adjust dosage without professional guidance.

Dosage for Livestock

IVERCARES

01 Dosage varies by livestock type and species.

02 Also depends on the specific parasite being treated.

03 A veterinarian should always determine the exact amount.

04 Accurate dosing supports full parasite elimination.

05 Avoid dosing livestock without proper guidance.

Administration Guidelines

IVERCARES

01 Treatment usually lasts between 3 and 5 days.

02 Give the tablet at the same time each day.

03 Complete the entire course even if symptoms improve.

04 Stopping early may allow parasites to survive.

05 Always confirm timing and duration with your vet.

Common Side Effects

IVERCARES

01 Mild nausea or vomiting may occasionally occur.

02 Some animals experience temporary diarrhea.

03 Loss of appetite is occasionally reported.

04 Most side effects are mild and short-lived.

05 Serious reactions are considered uncommon overall.

When to Contact a Vet

IVERCARES

01 Reach out if side effects seem unusually severe.

02 Persistent vomiting or diarrhea warrants a call.

03 Sudden lethargy or weakness should be checked.

04 Any signs of **allergic reaction** need prompt attention.

05 When in doubt, always consult your veterinarian.

Storage Instructions

01 Store in a cool, dry place away from sunlight.

02 Protect tablets from excess moisture at all times.

03 Keep well out of reach of children and pets.

04 Always check the expiration date before use.

05 Follow label instructions for safe storage.
